## **PARKWHITEPLAINS**

White Plains has launched its own mobile parking app! **ParkWhitePlains** makes paying for parking easier, faster, more convenient and more reliable. Its innovative technology will help you locate public parking facilities in the City and offer merchant validation, so when you patronize your favorite store and restaurants you can now also receive parking discounts.

The app is available as an iPhone and Android app, or can be used on any desktop or mobile browser. Initially available for use in most off-street metered parking in White Plains, the Department of Parking is expanding the system to the remainder of the metered parking in the City - both on-street and off-street. Look for availability sometime in late September in the City's Haarlem Avenue commuter parking lot adjacent to the North White Plains train station and in the City's Mitchell Place parking lot, located in downtown. Additional off-street locations will be added in October with the on-street system coming on-line in November.

Join the 7,500 customers already using the app to pay for their parking at
